

NESAQUAKE

All-Stars

At the end of each quarter, Nesaquake honors All-Star students who have been nominated by teachers from all subject areas and disciplines. Students are eligible to win one All-Star award during their time at Nesaquake, which provides us the opportunity to recognize as many of our students as possible.

Unlike other award programs, Nesaquake All-Stars are not held to a specific grade point average requirement. Instead, students nominated as All-Stars meet and exceed expectations set by our school, our community, and our classroom teachers. Students nominated for All-Star awards embody qualities such as determination, kindness, courage, honesty, and humility; traits needed to succeed in school, traits we value deeply within the Nesaquake school community, and most importantly traits that will help our students lead fulfilling and successful lives.
