SAVVY TAX PLANNING IN RETIREMENT:

Strategies to Help You Pay the Least Amount of Taxes

Evan Levy, CFP

HSE Little Theater

Do you feel you are paying way too much in taxes? Interested in learning how you can reduce your tax bill? In this workshop, you will learn four clear-cut strategies to potentially lower your tax bill. We will also cover how improving the "location allocation" of your investment portfolio can potentially save you thousands in unnecessary taxes. You will learn when you must begin your required minimum distributions (RMDs) from IRAs and 401(k)s, and how to reduce taxes on your required minimum distributions (RMDs). If you are retired or nearing retirement and are interested in paying the least amount of taxes, this workshop is for you!

What is Adult Education?

“Small groups of aspiring adults who desire to keep their minds fresh and vigorous; who begin to learn by confronting pertinent situations; who dig down into the reservoirs of their secondary facts; who are led in the discussion by teachers who are also seekers after wisdom and not oracles: this constitutes the setting for adult education, the modern quest for life’s meaning.”

-from The Meaning of Adult Education, Eduard Lindeman, 1926

"Learning which is combined with action provides a peculiar and solid enrichment. If, for example, you are interested in art, you will gain much more if you paint as well as look at pictures and read about the history of art... If you enjoy nature, refuse to be content with the vicarious experiences of naturalists: become a naturalist yourself. In all of these ways learning becomes an integral part of living until finally the old distinction between life and education disappears. In short, life itself becomes a perpetual experience of learning."

-from The Democratic Man, Edward
Lindeman, 1956
