

SENSATIONAL SCIENCE

SCOPE Education Services
Smithtown Sensational Science Club 2026-2027
Students in Grades 2nd through 5th

Before School 8:20 AM – 9:20 AM

Welcome back science lovers! Sensational Science is back with 4 ALL-NEW fun and educational science clubs. During each club, our young scientists will explore the world of science. They will perform hands-on experiments on the topics of chemistry, physics, life science, earth science, and problem-solving. Best of all, not only will they leave with the knowledge of science; they will be able to bring home most of their creations. On top of that, they will not repeat a single experiment for the whole year!

SENSATIONAL SCIENCE 1

School is back in session. The Fall season is here. Join us for Sensational Science 1 as we perform some fun “fall” themed science experiments. During this club, our “scientists” will discover the world of chemistry and physics. Students will explore “creepy” chemical reactions, have a “blast” with air pressure, and discover how to create “spooky” sounds with science.

Where?	When?
Accompsett Elementary- Thursdays Dogwood Elementary- Wed or Thurs Mills Pond Elementary- Wednesdays Mount Pleasant Elementary- Wed or Thurs Smithtown Elementary- Thursdays St. James Elementary- Wed or Thurs Tackan Elementary- Thursdays	Wednesday- 10/21, 10/28, 11/4, 11/18 Thursday - 10/22, 10/29, 11/5, 11/12

****All students leave with the experiments they created!****

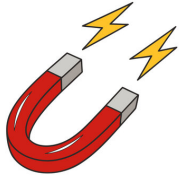

Registration online only at: www.scopeonline.arux.app (Click Enrichment)

Space is limited to 20 students per session.

COST: \$135.00 PER SESSION

SENSATIONAL SCIENCE 2

Winter is here and it's cold outside, but the science club is heating up. During Sensational Science 2, students will continue to explore the world of science. Students will experiment with the power of magnetism and static electricity. They will discover how different materials react to heat. Additionally, they will use science to discover metal in places they would never expect it.

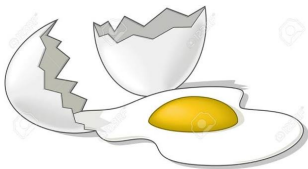

Wednesday-1/13, 1/20, 1/27, 2/3
Thursday-1/14, 1/21, 1/28, 2/4

SENSATIONAL SCIENCE 3

Springtime is here, so let's spring into a new set of science experiments with Sensational Science 3. During this club, students will explore biology while studying the human eye and optical illusions. Next, students will use their engineering skills and knowledge of physics to construct mini "bots". Last, students will see if they can master the "Egg Drop Challenge".

Wednesday-3/17, 3/24, 3/31, 4/7
Thursday-3/11, 3/18, 4/1, 4/8

SENSATIONAL SCIENCE 4

CSI- Crime Scene Investigations- Case of the Missing Mascot

The school year is coming to an end, but not until our crime is solved: CSI-The Case of the Missing Mascot. During this 4 week club, students will work together to solve a crime. They will learn and use forensic techniques to analyze evidence found at the scene. Good luck detectives!

Wednesday- 5/5, 5/12, 5/19, 5/26
Thursday- 5/6, 5/13, 5/20, 5/27

****All students leave with the experiments they created!****

Registration online only at: www.scopeonline.arux.app **Click Enrichment**

Space is limited to 20 students per session.

COST: \$135.00 PER SESSION Need more information?
